Benefits which this plan offers

A. Guaranteed Maturity Benefit:

On completion of Policy term, you are guaranteed to get:

- Sum Assured on Maturity, plus
- Accrued Guaranteed Additions
- Loyalty Benefit

Sum Assured on Maturity:

Sum Assured on Maturity is an amount equal to Basic Sum Assured. It is dependent upon the age of the life assured at the inception of Policy, premium and Policy term chosen by the Policy holder.

Guaranteed Additions (GA):

Guaranteed Additions are calculated for each completed Policy year as a percentage of Sum Assured on Maturity. The GA are accrued at the end of each policy year over the Policy term and same shall be payable on death or maturity or surrender.

Loyalty Benefit (LB):

On completing the Policy term, this plan offers special loyalty benefit which is a one-time lump sum benefit paid as a percentage of the sum assured.

The Guaranteed Additions rate and Loyalty Benefit rate based on the opted Policy term are as follows:

| Policy Term (Years)/ Annualized Premium Band (₹) | GA (% of Sum Assured on Maturity) | | LB (% of Sum Assured on Maturity) |
|--|-----------------------------------|-------------------------|-----------------------------------|
| | ₹ 24,000 to ₹59,999 p.a. | ₹ 60,000 and above p.a. | |
| 10 | 7.00% | 7.50% | 10% |
| 12 | 7.00% | 7.50% | 12% |
| 15 | 7.00% | 7.50% | 15% |

Case Study:

Let's understand how the Guaranteed Additions are calculated with the help of an example.

| Age of Life Assured | Policy Term Chosen | Sum Assured on Maturity Chosen (₹) | Annual Premium calculated for the chosen sum Assured on Maturity (₹) |
|---------------------|--------------------|------------------------------------|--|
| 35 Years | 15 years | 1,00,000 | 26,159 |

So Guaranteed Additions in this case will be calculated as mentioned below:

| | |
|--|----------|
| Guaranteed Additions accrued at the end of each policy year (₹) (as 7% of Sum Assured on Maturity) | 7,000 |
| Total Guaranteed Additions accrued for 15 years and payable on Maturity (₹) | 1,05,000 |

One time Loyalty Benefit (LB) payable on maturity will be equal to 15% of Sum Assured on Maturity, i.e., ₹15,000.

B. Life Insurance Cover:

Exide Life POS Star Saver ensures that your family is financially protected by paying them life insurance cover subject to the waiting period. Life Insurance cover is equal to:

- Sum Assured on death and
- Accrued Guaranteed Additions

In case of death due to accident, Additional Accidental Death Benefit will be paid.

Where Sum Assured on Death is defined as highest of 'Sum Assured on Maturity' or 10 times Annualized Premium* or 105% of total premiums paid till date of death.

Waiting Period: It is a period of first 90 days from the date of acceptance of risk, applicable at initial purchase of the policy and not on revival of the policy. In case of death (other than due to accident) of Life Assured during waiting period, only 100% of Premium received excluding taxes, if any, shall be payable to the nominee. Waiting period shall not be applicable for accidental death.

***Annualized Premium** shall be the premium payable in a year chosen by the Policyholder, excluding taxes, underwriting extra premiums and loadings for modal premiums, if any.

Additional Accidental Death Benefit is equal to the Sum Assured on Death plus Guaranteed Additions accrued till the date of death. The details of "Accidental Death" and related exclusions are provided in Annexure III.

C. Tax Benefits

Policyholder may be eligible for tax benefits under following Sections of the Income Tax Act, 1961, subject to provisions contained therein.

- U/S 80C of the Income Tax Act 1961 on your premiums paid[#]
- U/S 10(10D) of the Income Tax Act 1961 on the maturity proceeds of your Policy[#]

[#]The aforesaid tax benefits are subject to change in tax laws and to the terms set out in the said Sections. We therefore urge you to carefully analyze in consultation with your tax advisor the tax benefits/tax implications, if any that may arise on investing in this Policy.

D. Policy Loan

You can also avail loan under this policy provided your policy has acquired surrender value, if 2 full years' premiums have been paid. The policyholder may obtain a loan on the sole security of the policy and on its proper assignment to the Company. The loan amount shall be up to 80% of the available surrender value of the policy, provided that the amount of loan is not less than ₹1,000. The current rate of interest on the loan is 8.25% p.a. compounded semi-annually and will be determined by the Company from time to time. The loan interest rate is set as per the formula below on 1st April every year:

Higher of (Bank rate fixed by RBI as on 1st April + 2%, Pricing interest rates +1%, best estimate rate used in setting of valuation rate). The rate is reviewed annually and is rounded to nearest 25 basis points.

Any fresh loan within the permissible limits will be the difference between maximum permissible loan amount less any outstanding loans including accumulated interest, if any. All outstanding loan and interest thereon shall be deducted from any benefits payable under this policy. Except in case of an in-force or fully paid policy, if at any point of time, the loan along with outstanding accrued interest exceeds the value of benefits payable under this policy, the company reserves the right to foreclose this policy.

How this plan works?

| | |
|----------|---|
| Step 1 | Choose the Basic Sum Assured amount that suits your needs. Choose the Policy Term as per your needs. Based on the parameters chosen above and your age at entry, premium payable will be calculated. Sum Assured on death payable to nominee in case of demise of life assured will be calculated. |
| Step 2 | You will pay annual premium regularly for 5 years during the policy term. |
| Benefits | On maturity, 'Sum Assured on maturity' plus Accrued Guaranteed Additions and Loyalty Benefit will be paid. In case of death of life assured, Sum Assured on Death plus accrued Guaranteed Additions will be paid to the beneficiary. |

Terms and Conditions:

- A. Grace Period:** Grace Period is an extra time period after the premium payment due date which is provided to you for your convenience in paying the premium. Grace period is 30 days.
- B. Lapsation:** In the event of non-payment of premium due under the Policy within the grace period, the Policy will lapse if the Policy has not acquired a surrender value (refer section E for surrender). The risk cover will cease and no benefits will be payable in case of lapsed policies.

You may revive your lapsed Policy subject to conditions stated in Section D on Revival.

- C. Reduced Paid up:** If at least 2 full year's premiums have been paid and further premiums are unpaid and the Policy is not surrendered, the Policy will acquire the status of reduced paid up on the date of expiry of grace period up till the Policy is revival for full benefits. Once the Policy attains the status of reduced paid up, the life cover will be reduced as per the formula mentioned below:

$$\text{Reduced Paid - up Life Cover} = \frac{\text{Number of premiums paid}}{\text{Total Number of premiums payable under the policy}} \times (\text{Sum Assured on Death} + \text{Accrued Guaranteed Additions})$$

During the Reduced paid-up state of the Policy, the Reduced Paid-up Life Cover will be paid on death of life assured.

Additional Accidental Death Benefit in case of Reduced Paid-up Death Benefit shall be calculated as per the formula mentioned below:

$$\text{Reduced Paid - up Additional Accidental Death Benefit} = \frac{\text{Number of premiums paid}}{\text{Total Number of premiums payable}} \times (\text{Sum Assured on Death} + \text{Accrued Guaranteed Additions})$$

Reduced paid-up maturity benefit will be calculated as per the formula mentioned below:

$$\text{Reduced Paid-up Maturity Benefit} = \frac{\text{Number of premiums paid}}{\text{Total Number of premiums payable under the policy}} \times (\text{Sum Assured on Maturity} + \text{Accrued Guaranteed Additions}^{**} + \text{Loyalty Benefit})$$

- D. Revival:** Policy can be revived during the Policy term but within a period of two years from the date of first unpaid premium by submitting the proof of continued insurability to the satisfaction of the board approved underwriting Policy and making the payment of all due premiums together with payment of late fee calculated at such rate as may be prevailing at the time of the payment. The current interest rate used for calculating the late fee is 8.25% per annum compounded semi-annually. If needed the company may refer it to its medical examiner in deciding on revival of lapsed Policy.
- E. Surrender:** In order to honour unexpected commitments or needs, a Surrender option is available. The Policy will acquire a Guaranteed Surrender Value (GSV) provided at least two full year's premium is paid. The surrender benefits are payable immediately on surrender. All benefits under the Policy shall automatically terminate upon payment of surrender benefit.

The surrender benefit is higher of the Special Surrender Value (SSV), if any or the Guaranteed Surrender Value (GSV), after deduction of any loans under the Policy. GSV and SSV are as follows:

Guaranteed Surrender Value (GSV): If at least two full year's premium has been paid, the Policy acquires a GSV. GSV depends on the year of Surrender. GSV is the sum of the following:

- GSV Factor 1 multiplied by the total amount of premiums paid excluding the premium paid for extra mortality rating, if any.
- GSV Factor 2 multiplied by the total Guaranteed Additions (GA) accrued and loyalty benefit applicable to the Policy.

The GSV Factors with respect to policy term are given in the table below:
