## Terms and conditions

### Grace period:

Grace Period is an extra time period after the premium payment due date which is provided to you for your convenience in paying the premium. Grace period is 30 days for annual premium payment frequency and 15 days for monthly premium payment frequency.

### Lapse:

If the Regular Premium is not paid within the grace period, the Policy shall lapse and have no further value except non-forfeiture benefits.

### Reduced paid-up:

If at least two full years' premiums have been paid and further premiums are unpaid and the policy is not surrendered, the policy will acquire a reduced paid up state on the date of expiry of grace period. Once the policy becomes reduced paid up, the sum assured will be reduced as per the formula mentioned below:

### For maturity benefit

$$\text{Reduced Paid-Up Sum Assured} = \frac{\text{Number of premiums paid}}{\text{Total Number of premiums payable}} \times (110\% \text{ Sum Assured of basic policy}) + \text{Accumulated Bonus, if any}$$

### For death benefit

$$\text{Reduced Paid-Up Sum Assured} = \frac{\text{Number of premiums paid}}{\text{Total Number of premiums payable}} \times (\text{Sum Assured of basic policy}) + \text{Accumulated Bonus, if any}$$

In case of death of life assured during paid-up status, the above mentioned benefit will be payable only as lump sum whether the Guaranteed Death Benefit is chosen as option A or option B.

A reduced paid up policy will not be eligible for bonuses declared after premium discontinuance.

### Revival:

Policy can be revived during the policy term but within a period of five years from the date of first unpaid premium by submitting the proof of continued insurability to the satisfaction of the board approved underwriting policy and making the payment of all due premiums together with interest / payment of revival charge at such rate as may be prevailing at the time of the payment. If needed the company may refer it to its medical examiner in deciding on reinstatement of lapsed policy.

The interest rate is set as per the formula below and is subject to IRDAI's approval:

Bank rate fixed by RBI as on 1st April + 2.5%, rounded up to a multiple of 50 basis points.

The Revival interest rate for financial year 2019-20 is 9%.

### Surrender:

In order to honour unexpected commitments or needs, a Surrender option is available. This policy can be surrendered if at least two full year's premium are paid. All benefits under the policy shall automatically terminate upon payment of surrender benefit.

The surrender benefit is higher of the Special Surrender Value (SSV), if any or the Guaranteed Surrender Value (GSV). GSV and SSV are as follows:

### Guaranteed surrender value (GSV):

If at least two full years' premium has been paid, the policy acquires a GSV. GSV depends on the year of Surrender. GSV is the sum of the following:

1. GSV Factor 1 multiplied by the Total Premiums Paid.
2. GSV Factor 2 multiplied by the total vested Simple reversionary bonus accrued to the policy, if declared. The GSV Factors increase with the policy duration and are provided in the table below:

**GSV Factor 1:**

**Special surrender value (SSV):**

If at least two full years' Premiums have been paid the policy may acquire a Special Surrender Value. SSV will be declared by Company from time to time.

For e.g. for a policyholder with entry age of 35 years; Premium of ₹36,000 annually; Policy Term of 20 years, premium payment term of 10 years and Sum Assured of ₹2,97,250, the surrender value (assuming that he has paid 7 premiums and surrenders at the end of 7th policy year and assuming that simple reversionary bonus of 7% p.a. has been declared since policy inception) is calculated as follows:

GSV as a percentage of premiums paid = 50% of all the premiums paid = 50% of (₹36,000 × 7) = ₹1,26,000, plus

GSV as a percentage of vested bonus = 15% of vested bonus = 15% of (₹2,97,250 × 7% × 7 years) = ₹21,848.

Total GSV = ₹1,26,000 + ₹21,848 = ₹1,47,848

SSV = Applicable SSV factor × Sum Assured + Vested Bonus/1000 = 423.41 × (₹2,97,250 + ₹1,45,653)/1000 = ₹1,87,530.

The surrender value is higher of GSV or SSV and hence is equal to ₹1,87,530.

All benefits under the policy shall automatically terminate upon payment of Surrender Value.

## **Free look period:**

The Policyholder shall have a period of 15 days (30 days if the Policy is sourced through Distance Marketing# as provided in Distance Marketing Guidelines IRDA/ADMN/GDL/MISC/059/04/2011 dated 05/04/2011) from the date of receipt of the Policy document to review the terms and conditions of this Policy and if the Policyholder disagrees with any of the terms and conditions, he/she has the option to return the Policy stating the reasons for the cancellation upon which the Company shall return the Premium paid subject to deduction of a proportionate risk Premium for the period of insurance cover in addition to the expenses incurred on medical examination (if any) and the stamp duty charges. All Benefits and rights under this Policy shall immediately stand terminated on cancellation of the Policy.
